RunCzech

Web portal of the running league RunCzech.com

More than 100,000 of registered runners

Ready, steady... run!

The new web portal RunCzech.com can perfectly handle the extreme onslaught of 100,000 eager-to-run racers as well as the information service including the easy-to-use registration. It was not for nothing that we brought "home" gold for the website from the Internet Effectiveness Awards.

We started the whole project on the Edee CMS, which enables easy administration of the content in eight languages.
